To Whom it may concern,

Please just say NO to Duke Energy's request for rate increase. Duke Energy just recently increased residential rates to force us to pay for corporate utilities. With the recent stock market crash and high unemployment Duke

energy has some nerve trying to bleed more money out of their financially challenged customers.

My blood still boils every time I think about the last residential rate increase while cutting corporate rates. How dare you people get paid with our tax money yet work against the citizens to cater to rogue corporations. This madness must stop.

Sincerely, Mrs. Hall
